STAR LIGHT

SMOKY CRYSTAL

LIGHT PEARL

ORANGE PINK

PINK BUBBLE

LILLA FLOWER

**A palette of toners that enhance blonde hair after bleaching, restoring brightness, shine and multidimensional tones**

- Demi-permanent oxidation color.
- High-performing three-dimensional pigments for intense and vibrant tones.
- Reduces unwanted brassy tones after bleaching.
- Respects the hair's original color without further lightening it.
- Does not add unwanted brassiness to highlights.
- 100% vegan. The formula does not contain any animal-derived ingredients or GMOs.

**All the shades can be mixed to create unique color effects.**

- The Diamond Dust and Hydrolyzed Pearl add extra shine, making hair look visibly healthier.

### THE INGREDIENTS of Light Scale Color

#### DIAMOND DUST

Diamonds have been used for centuries for gemstone therapy. In particular, diamond dust is used as an exfoliant and highlighter in the cosmetic and personal care market.

#### HYDROLYZED PEARL

Pearls have always been used in Chinese medicine. They contain between 14 and 18 amino acids and minerals that have an anti-aging effect on the skin and a strengthening and nourishing effect on hair. In addition, they also improve the keratin structure for super voluptuous hair. Hydrolyzed pearl is perfect for replicating pearls' shine and beauty on skin and hair.
